

Business Fundamentals

A modular programme for GPs

Beds & Herts LMC Ltd in partnership with Bedfordshire, Luton and Milton Keynes (BLMK) STP, have designed a modular programme of business fundamentals aimed at GPs who want to understand general practice at operational and strategic level. The course provides practical tools underpinned by theory to help tackle the ever-increasing challenges to build a strong, sustainable future in primary care.

This pilot programme is funded for GPs working in the BLMK area who demonstrate an interest in business, partnerships, strategic planning and leadership development. Each module is delivered and facilitated by experienced primary care specialists 1 day* a month from February to July 2019. This is an excellent opportunity with limited places available, so delegates must be committed to attending all modules to complete the programme.

Module 1
Partnerships –
Logistics, Legalities &
Governance

Module 2
Managing People

Module 3
Managing the Business
& Managing Change

Module 4
Information and
